Latitude 21·56
Long at 3 117·05

Monday 19th
First part fresh trades & fair Steered
N By E at Sunset Double reeft Middle
strong breezes & overcasts past through
some vary remarkable water During the
night at 9 Came into white water after
we had saild Distance anought to
loose sight of the Darke water nathing
but one white sheete of water all around
as far as the Eye Could Extend the scene
was striking & would ben Alarming if
we had nat seen it something simmiler previou
to this I Could think it was A fair resemblem
of A field of snow in A darke night
we Drawed A bucket of water & found it
to Contain some 20 or 30 little lights from the
size of A barley Corn to A small peanut
I took one of the largest out Caried it to the
light for Examination found it to be about
½ inch in length & as fine As the finest
thread of silk white transparent & of A gell
nature at 10 Came in to Darke water saild
through several more beads During the nig
later fresh breezes turnd one reef out set
M sail & gibb watch Employed in Ships Du
at Meridian More Moderate Steered N & E
Latitude 19·5
Long at 2 PM Chro - 117·2
